Contents of Volume 58, 1999

(All rights reserved)

Nutrition Society Medal Lecture *(29 June–2 July 1998)*

Chair: M. J. Gibney, *Trinity College, Dublin*

Obesity: from molecules to man.
S. A. Jebb 1–14

Schoenheimer Centenary Lecture *(29 June–2 July 1998)*

Chair: D. J. Millward, *University of Surrey, Guildford*

Isotopes in nutrition research.
V. R. Young & A. Ajami 15–32

Implementing dietary change: theory and practice
(Symposium Proceedings: 29 June–2 July 1998)

Chairs: J. A. Tredger, *University of Surrey, Guildford*; **L. Cox,** *BDA, Birmingham*

New techniques in nutritional assessment: body composition methods.
M. Elia & L. C. Ward 33–38

Problems of nutritional assessment in the acute setting.
J. P. Baxter 39–46

Problems of nutritional assessment in the community.
J. Edington 47–51

Treatment of obesity: theory into practice.
S. F. L. Kirk 53–58

Eating habits and appetite control: a psychobiological perspective.
P. J. Rogers 59–67

Nutrition and immunology from fetal life to old age
(Symposium Proceedings: 29 June–2 July 1998)

Chair: M. Elia, *Dunn Clinical Nutrition Centre, Cambridge*

The influence of the maternal uterine immune response on placentation in human subjects.
A. King & Y. W. Loke 69–73

Prematurity, immune function and infant feeding practices.
S. M. Hampton 75–78

Effects of dietary antioxidants on the immune function of middle-aged adults.
D. A. Hughes 79–84

Immune response during disease and recovery in the elderly.
B. Lesourd 85–98

The relationship between physical activity patterns and patterns of food, energy and nutrient intake *(Symposium Proceedings: 29 June–2 July 1998)*

Chair: R. J. Stubbs, *Rowett Research Institute, Aberdeen*

Influence of intense physical activity on energy balance and body fatness.
A. Tremblay & E. Doucet 99–105

What processes are involved in the appetite response to moderate increases in exercise-induced energy expenditure.
N. A. King 107–113

The effect of inactivity on dietary intake and energy homeostasis.
P. Ritz & M. Elia 115–122

Preparing for inactivity: how insectivorous bats deposit a fat store for hibernation.
J. R. Speakman & A. Rowland 123–131

Recent developments in the bioavailability of micronutrients *(Symposium Proceedings: 29 June–2 July 1998)*

Chair: H. J. Powers, *University of Sheffield, Sheffield*

Modelling in nutrition: an introduction.
P. D. G. Wilson & J. R. Dainty 133–138

The bioavailability of non-nutrient plant factors: dietary flavonoids and phyto-oestrogens.
H. Wiseman 139–146

The regulation of mineral absorption in the gastrointestinal tract.
J. J. Powell, R. Jugdaohsingh & R. P. H. Thompson 147–153

Bioavailability of carotenoids in human subjects.
R. S. Parker, J. E. Swanson, C.-S. You, A. J. Edwards & T. Huang 155–162

Dietary determinants of lipoprotein-mediated cardiovascular risk *(Symposium Proceedings: 29 June–2 July 1998)*

Chair: K. N. Frayn, *Radcliffe Infirmary, Oxford*

Lipoprotein atherogenicity: an overview of current mechanisms.
B. A. Griffin 163–169

The genetics of serum lipid responsiveness to dietary interventions.
J. M. Ordovas 171–187

Strategies for altering population intakes of fats and fatty acids.
M. J. Gibney 189–191

Phyto-oestrogens: a potential role in the prevention of CHD?
A. Cassidy & B. Griffin 193–199

Dietary carbohydrates and triacylglycerol metabolism.
H. M. Roche 201–207

Meat or wheat for the next millennium? *(29 June–2 July 1998)*

Introduction

Meat or wheat for the next millennium?
D. J. Millward 209–210

Plenary lectures *(29 June–2 July 1998)*

Chair: V. Young, *Massachusetts Institute of Technology, Cambridge, MA, USA*

Animal *v.* plant foods in human diets and health: is the historical record unequivocal?
M. Nestle 211–218

Alternative futures for world cereal and meat consumption.
M. W. Rosegrant, N. Leach & R. V. Gerpacio 219–234

Animal- and plant-food-based diets and iron status: benefits and costs.
L. Hambræus 235–242

High-meat diets and cancer risk.
S. A. Bingham 243–248
The nutritional value of plant-based diets in relation to human amino acid and protein requirements.
D. J. Milward 249–260

Debate *(29 June–2 July 1998)*

Chair: W. P. T. James, *Rowett Research Institute, Aberdeen*

Meat and colo-rectal cancer.
M. J. Hill 261–264
The nutritional adequacy of plant-based diets.
T. A. B. Sanders 265–269
Health benefits of a vegetarian diet.
T. J. Key, G. K. Davey & P. N. Appleby 271–275

Postgraduate Symposium *(Symposium Proceedings: 29 June–2 July 1998)*

Chair: C. Brooks, *University of Surrey, Guildford*

Childhood leukaemia: a model of pre-obesity.
J. C. Ventham & J. J. Reilly 277–281
The influence of maternal nutrient restriction in early to mid-pregnancy on placental and fetal development in sheep.
L. Heasman, L. Clarke, T. J. Stephenson & M. E. Symonds 283–288
The effect of vitamin A on epithelial integrity.
F. S. W. McCullough, C. A. Northrop-Clewes & D. I. Thurnham 289–293
A possible role for vitamin C in age-related cataract.
J. C. van der Pols 295–301

Nutrition and lung health *(Symposium Proceedings: 29 June–2 July 1998)*

Chair: M. J. Rennie, *University of Dundee, Dundee*

Nutrition and lung health.
M. K. Sridhar 303–308
Dietary influences on chronic obstructive lung disease and asthma: a review of the epidemiological evidence.
H. A. Smit, L. Grievink & C. Tabak 309–319
The pulmonary cachexia syndrome: aspects of energy balance.
J. Congleton 321–328
Vitamins and lung cancer.
J. Virtamo 329–333

Feeding the world in the future *(Symposium Proceedings: 29 June–2 July 1998)*

Chair: C. J. K. Henry, *Oxford Brooks University, Oxford*

Diet, health and globalization: five key questions.
T. Lang 335–343
China: the soyabean–pork dilemma.
C. Geissler 345–353
Food aid in emergencies: a case for wheat?
J. Landman 355–361

Improving meat production for future needs
(Symposium Proceedings: 29 June–2 July 1998)

Chair: R. J. Dewhurst, *Institute of Grassland and Environmental Research Plas, Aberystwyth*

Manipulating meat quality and composition.
J. D. Wood, M. Enser, A. V. Fisher, G. R. Nute, R. I. Richardson & P. R. Shear 363–370
Meat production in developing countries.
M. Gill 371–376
Development of farmed fish: a nutritionally necessary alternative to meat.
J. R. Sargent & A. G. J. Tacon 377–383

Implementing dietary change: theory and practice
(Symposium Proceedings: 29 June–2 July 1998)

Chairs: J. A. Tredgar, *University of Surrey, Guildford;* **L. Cox,** *BDA, Birmingham*

New understanding in obesity research.
W. P. T. James & A. Ralph 385–393

Optimal nutrition *(Symposium Proceedings: 22–24 July 1998)*

Chairs: N. O'Brien, *University College Cork, Cork;* **M. Flynn,** *Dublin;* **B. Livingstone,** *University of Ulster, Coleraine;* **H. McNulty,** *University of Ulster;* **P. Mee,** *Irish Nutrition and Dietetic Institute, Dublin;* **A. Flynn,** *University College Cork*

Optimal nutrition: an overview.
J. J. Strain 395–396
Unsaturated fatty acids.
H. M. Roche 397–401
Optimal intakes of protein in the human diet.
D. J. Millward 403–413
Optimal nutrition: fibre and phytochemicals.
I. Rowland 415–419
Optimal macronutrient balance.
M. J. Gibney 421–425
Optimum nutrition: thiamin, biotin and pantothenate.
D. A. Bender 427–433
Current knowledge concerning optimum nutritional status of riboflavin, niacin and pyridoxine.
H. J. Powers 435–440
Folate and vitamin B_{12}.
J. M. Scott 441–448
Optimal nutrition: vitamin A and the carotenoids.
D. I. Thurnham & C. A. Northrop-Clewes 449–457
Optimal nutrition: vitamin E.
P. A. Morrissey & P. J. A. Sheehy 459–468
Vitamin C: prospective functional markers for defining optimal nutritional status.
I. F. F. Benzie 469–476
Optimal nutrition: calcium, magnesium and phosphorus.
K. D. Cashman & A. Flynn 477–487
Defining optimal body iron.
J. D. Cook 489–495
Considerations for determining 'optimal nutrition' for copper, zinc, manganese and molybdenum.
M. L. Failla 497–505
Functional indicators of iodine and selenium status.
J. R. Arthur 507–512

Functionality of nutrients and behaviour
(Symposium Proceedings: 30 September–2 October 1998)

Chairs: A. Basdevant, *Hotel-Dieu, Paris;* **J. Mathers,** *University of Newcastle, Newcastle*

Food choice and intake: the human factor.
D. J. Mela 513–521
The effect of nutrients on feed intake in ruminants.
P. Faverdin 523–531
The effects of specific nutrients on the regulation of feeding behaviour in human subjects.
S. J. French 533–540

Lipogenesis in farm animals *(Symposium Proceedings: 30 September–2 October 1998)*

Chair: Y. Chilliard, *INRA, Theix, France*

Present and future studies on lipogenesis in animals and human subjects.
R. G. Vernon, M. C. Barber & M. T. Travers 541–549

Functionality of nutrients and food safety
(Symposium Proceedings: 30 September–2 October 1998)

Chairs: F. Andrews, *Trinity College Dublin, Dublin;* **D. Lairon,** *Institut National de la Santé et de la Recherche Medicale, Marseille, France*

Validity of animal models for the cholesterol-raising effects of coffee diterpenes in human subjects.
B. de Roos, J. K. Sawyer, M. B. Katan & L. L. Rudel 551–557
Oxidant stress: the role of nutrients in cell–lipoprotein interactions.
D. Blache, L. Gesquière, N. Loreau & P. Durand 559–563
Metal ions as regulators of the conformation and function of the tumour suppressor protein p53: implications for carcinogenesis.
C. Méplan, G. Verhaegh, M.-J. Richard & P. Hainaut 565–571
Micronutrients and ageing: intakes and requirements.
M.-J. Richard & A.-M. Roussel 573–578

Food technology: can it alter the functionality of nutrients?
(Symposium Proceedings: 30 September–2 October 1998)

Chairs: K. Younger, *Dublin Institute of Technology, Dublin;* **F. Laurent,** *ENSAIA, Nancy, France*

Functionality of nutrients and thermal treatments of food.
J. Hardy, M. Parmentier & J. Fanni 579–585
Evaluation of the impact of food technology on the allergenicity of cow's milk proteins.
M. Heyman 587–592
Targets and procedures for altering ruminant meat and milk lipids.
D. Demeyer & M. Doreau 593–607

Functionality of nutrients and gene expression
(Symposium Proceedings: 30 September–2 October 1998)

Chairs: J. L. Bresson, *Hopital Necker-Enfants Malades, Paris;* **P. Trayhurn,** *Rowett Research Institute, Aberdeen*

A genetic dissection of the retinoid signalling pathway in the mouse.
M. Mark, N. B. Ghyselinck, O. Wendling, V. Dupé, B. Mascrez, P. Kastner & P. Chambon 609–613
The long-term consequences of intra-uterine protein malnutrition for glucose metabolism.
S. E. Ozanne & C. N. Hales 615–619

Regulation of gene expression by glucose.
P. Ferré 621–623
Amino acid limitation regulates gene expression.
A. Bruhat, C. Jousse & P. Fafournoux 625–632
Selectivity of fatty acids on lipid metabolism and gene expression.
T. Raclot & H. Oudart 633–646

Sir David Cuthbertson Medal Lecture *(8–10 December 1998)*

Chair: C. R. Pennington, *Ninewells Teaching Hospital NHS Trust, Dundee*

The impact of dietary protein restriction on insulin secretion and action.
M. J. Holness 647–653

Artificial nutrition support: no longer an expensive luxury!!
(Symposium Proceedings: 308–10 December 1998)

Chair: D. Silk, *Central Middlesex Hospital NHS Trust, London*

Outcomes of undernutrition in patients in the community with cancer or cardiovascular disease.
J. Edington, P. D. Winter, S. J. Coles, C. R. Gales & C. N. Martyn 655–661

Nutrition and antioxidants *(Symposium Proceedings: 308–10 December 1998)*

Chair: M. J. Rennie, *University of Dundee, Dundee*

Antioxidants and lipoprotein metabolism.
M. Chopra & D. I. Thurnham 663–671
Free radicals in skin and muscle: damaging agents or signals for adaptation?
M. J. Jackson 673–676
Glutathione status in critically-ill patients: possibility of modulation by antioxidants.
J. Wernerman, J.-L. Luo & F. Hammarqvist 677–680

Nutrition, infection and immunity *(4 December 1998)*

Chairs: P. C. Calder, *University of Southampton, Southampton;* **L. S. Harbige,** *University of Greenwich, London;* **D. A. Hughes,** *Institute of Food Research, Norwich*

Nutrition and immunology: from the clinic to cellular biology and back again.
R. K. Chandra 681–683
Nutrition and immunity in the elderly.
B. Lesourd & L. Mazari 685–695
Vitamin E and infectious diseases in the aged.
S. N. Han & S. N. Meydani 697–705
Selenium and host defence towards viruses.
M. A. Beck 707–711
Effects of carotenoids on human immune function.
D. A. Hughes 713–718
Vitamin A and immunity to viral, bacterial and protozoan infections.
R. D. Semba 719–727
Environment and infant immunity.
B. Björkstén 729–732
Exercise and immune function: effect of ageing and nutrition.
B. K. Pedersen, H. Bruunsgaard, M. Jensen, K. Krzywkowski & K. Ostrowski 733–742
Nutrition and immune function in human immunodeficiency virus infection.
D. C. Macallan 743–748

Obituary

Arnold Bender
C. Geissler 749–750

An appreciation

Thomas Moore
C. J. Bates 751–752

An appreciation

Reg G. Passmore
D. A. T. Southgate 753–754

Social and environmental influences on diet choice
(Symposium Proceedings: 27 January 1999)

Chairs: R. J. Dewhurst, *Institute of Grassland and Environment Research, Aberystwyth:* **J. E. Blundell,** *University of Leeds, Leeds*

What are the major correlates of macronutrient selection in Western populations?
J. M. de Castro 755–763

Diet selection and animal state: an integrative framework.
I. Kyriazakis, B. J. Tolkamp & G. Emmans 765–772

High-fat and low-fat (behavioural) phenotypes: biology or environment?
J. E. Blundell & J. Cooling 773–777

Assuaging nutritional complexity: a geometrical approach.
S. J. Simpson & D. Raubenheimer 779–789

Effects of extreme environments on food intake in human subjects.
M. S. Westerterp-Plantenga 791–798

Habitat selection according to the ability of animals to eat, digest and detoxify foods.
A. J. Duncan & I. J. Gordon 799–805

Social determinants of food choice.
R. Shepherd 807–812

Conditioned food aversions: principles and practices, with special reference to social facilitation.
M. H. Ralphs & F. D. Provenza 813–820

Nutrition and surgical practice *(Symposium Proceedings: 11 March 1999)*

Chair: N. P. Kennedy, *St James's Hospital, Dublin*

Pre-operative nutritional assessment.
C. A. Corish 821–829

Immunonutrition and surgical practice.
L. O'Flaherty & D. J. Bouchier-Hayes 831–837

Metabolic aspects of human nutrition at rest and during physical stress: recent methodological and technical developments
(Symposium Proceedings: 18–21 February 1999)

Chairs: C. Boesch, *University of Bern, Switzerland;* **B. Saltin,** *The Copenhagen Muscle Research Centre, Copenhagen;* **P. Arner,** *Huddinge Hospital, Sweden;* **J. Bülow,** *Bispebjerg Hospital, Copenhagen;* **B. Landau,** *Case Western Reserve University, OH, USA;* **A. J. M. Wagenmakers,** *Maastricht Univerisity;* **D. Halliday,** *BSIA Ltd, Middlesex, UK;* **A. Coggan,** *University of Maryland School of Medicine, MD, USA;* **M. Jackson,** *University of Liverpool, UK*

Introduction.
A. J. M. Wagenmakers 839–840

Observation of intramyocellular lipids by means of ^{1}H magnetic resonance spectroscopy.
C. Boesch, J. Décombaz, J. Slotboom & R. Kreis 841–850
NMR of glycogen in exercise.
T. B. Price, D. L. Rothman & R. G. Shulman 851–859
Introduction to *in vivo* ^{31}P magnetic resonance spectroscopy of (human) skeletal muscle.
A. Heerschap, C. Houtman, H. J. A. in 't Zandt, A. J. van den bergh & B. Wieringa 861–870
Arterio–venous differences to study macronutrient metabolism: introduction and overview.
I. A. Macdonald 871–875
Macronutrient metabolism of adipose tissue at rest and during exercise: a methodological viewpoint.
K. N. Frayn 877–886
Limb and skeletal muscle blood flow measurements at rest and during exercise in human subjects.
G. Rådegran 887–898
Skeletal muscle substrate metabolism during exercise: methodological considerations.
G. van Hall, J. González-Alonso, M. Sacchetti & B. Saltin 899–912
Microdialysis: use in human exercise studies.
P. Arner 913–917
Microdialysis of skeletal muscle at rest.
J. Henriksson 919–923
Vasoactive substances in the interstitium of contracting skeletal muscle examined by microdialysis.
J. Bangsbo 925–933
An introduction to the use of tracers in nutrition and metabolism.
M. J. Rennie 935–944
Body composition, water turnover and energy turnover assessment with labelled water.
K. R. Westerterp 945–951
Use of stable isotopes to study carbohydrate and fat metabolism at the whole-body level.
A. R. Coggan 953–961
Quantifying the contribution of gluconeogenesis to glucose production in fasted human subjects using stable isotopes.
B. R. Landau 963–972
Glycerol production and utilization measured using stable isotopes.
B. R. Landau 973–978
Correction factors for ^{13}C-labelled substrate oxidation at whole-body and muscle level.
G. van Hall 979–986
Tracers to investigate protein and amino acid metabolism in human subjects.
A. J. M. Wagenmakers 987–1000
An overview of methods for assessment of free radical activity in biology.
M. J. Jackson 1001–1006
Methods to detect DNA damage by free radicals: relation to exercise.
H. E. Poulsen, A. Weimann & S. Loft 1007–1014
Determination of activity of antioxidants in human subjects.
G. G. Duthie 1015–1024
Analysis of cellular responses to free radicals: focus on exercise and skeletal muscle.
S. K. Powers & S. L. Lennon 1025–1033

Abstracts of Original Communications

A comparison of the effect of two types of healthy eating dietary advice on perceived quality of life in Scottish men.
Sandra Drummond, Terry Kirk, Jacqueline I. Aaron & David J. Mela 2A

Micronutrient status and other risk factors for CHD in a working male population.
Jayne V. Woodside, Ian S. Young, John W. G. Yarnell, Dorothy McMaster, K. Fred Gey & Alun Evans 2A
Variability over 6 years in blood homocysteine concentration in an elderly population in Hertfordshire and relationship with heart disease.
John M. Jackson, Caroline H. Fall, Rebecca Reynolds, Sarah L. Duggleby & Alan A. Jackson 3A
Nutritional status and functional ability of older refugees.
Simone Pieterse, Mary Manandhar & Suraiya Ismail 3A
Malnutrition and dietary inadequacy among rural elderly Malays: simple indices to identify individuals at high risk.
Suzana Shahar, Jane Earland & Robert A. Dixon 4A
The relationship between nutritional status and functional ability among older people in rural Malawi.
Dorothy M. Chilima & Suraiya J. Ismail 4A
Age-related changes in various biochemical measurements of metabolites and antioxidant nutrients in female volunteers aged over 65 years.
M. C. Murphy, S. A. New, J. P. Wilson, A. Chambers, H. Davies, H. Croker, K. Walmsley, J. Barnham, M. W. J. Older & M. Lumbers 5A
Relationship between smoking, antioxidant intake and status indices in older people.
Catherine M. Walmsley, Chris J. Bates, Ann Prentice & Tim J. Cole 5A
Food choice in older adults: the role of information.
P. E. Belderson, F. E. Wood & M. E. Barker 6A
Food choice event frequencies predictive of individual fat intake: towards a self-assessment tool.
David A. Booth, Karen R. Rowe & Aisling Armstrong 6A
Developing a national point-of-purchase guide to healthier food choices.
Monique M. Raats, Julie Royce & Lynn Stockley 7A
Measurements of energy density from lean and obese consumers' self-reported dietary intakes: variation and associations with other dietary components.
David N. Cox, Lynne Perry, Peter B. Moore & David J. Mela 7A
Within-subject reproducibility of dietary restraint questionnaires.
D. A. Hughes, C. Reid & R. J. Stubbs 8A
The impact of nutrition education intervention to increase fruit and vegetable consumption in an area of urban deprivation.
Annie S. Anderson, Ali Bell & Rita Callander 8A
Fruit, vegetable and fat consumption of people who believe their diet is healthy.
J. M. Lawrence & B. M. Margetts 9A
An evaluation of the Wessex Healthy Schools Award: healthy eating.
R. L. Thompson, A. Moon, M. Mullee, V. Speller & P. Roderick 9A
Nutritional knowledge and attitudes to healthy eating amongst Surrey schoolchildren: preliminary data.
Susan A. New, Anna L. Matthews, Janet Catterick, Sara Thornton & Jacki A. Bishop 10A
Costs of an (un)healthy diet: analysis from the UK Women's Cohort Study.
Hendrike Upmeier, Janet E. Cade & Claire Calvert 10A
Characterizing dietary supplement use in women.
Sara F. L. Kirk, Janet E. Cade, Mark Conner & Jennifer Barrett 11A
Adverse reactions to foods in asthmatic young children.
M. Y. Nooraini, S. M. Hampton & Jane Morgan 11A
Impact of diet intervention on the growth of asthmatic children.
M. Y. Nooraini, S. M. Hampton & Jane Morgan 12A
Diet intervention (DI) in the treatment of asthma in young children.
M. Y. Nooraini, A. S. Mallik, P. Nair, S. M. Hampton & Jane Morgan 12A
Specific food immunoglobulin G (IgG) antibody levels to ovalbumin in asthmatic and non-atopic young children and adults.
M. Y. Nooraini, S. M. Hampton & Jane Morgan 13A

Longitudinal observations of weight change in inoperable lung cancer.
Jocelyn A. Kramer & Marinos Elia 13A
Nutritional status at diagnosis in a national cohort of children with acute lymphoblastic leukaemia.
John J. Reilly, Jennifer Weir, John H. McColl & Brenda E. S. Gibson 14A
Luminal short chain fatty acid concentration and apoptosis in colonic crypts from rats exposed to dimethyl hydrazine (DMH).
E. K. Lund, R. L. Botham, D. Beckley, J. M. Gee & I. T. Johnson 14A
Gastric emptying profile of solids is delayed in absence of colon.
M. D. Robertson & J. C. Mathers 15A
Effect of ephedrine, caffeine, and aspirin combinations on weight loss in obese women.
M. Aghakhan-Moheb, C. A. Geissler & K. Lancer 15A
Effect of glucagon-like peptide-1 infusion on gastric emptying, energy intake and satiety in man.
S. Long, A. Sutton, A. Kesidis, B. Amaee, N. Spyrou, P. Rogers & L. Morgan 16A
Effect of meal size and carbohydrate content on gastric emptying, energy intake and satiety in man.
S. Long, B. Amaee, A. Kesidis, A. Sutton, N. Spyrou, P. Rogers & L. Morgan 16A
Effect of habitual dietary protein intake on appetite and satiety.
S. Long, A. Jeffcoat & D. J. Millward 17A
The effect of phenylalanine supplementation on food intake and self-rated appetite scores.
W. L. Hall, P. J. Rogers, D. J. Millward & L. M. Morgan 17A
Physiological and psychological effects of fat and carbohydrate: influence on the rate of delivery.
Anita S. Wells, N. W. Read & I. A. Macdonald 18A
The effects of high-fat and low-fat diets on mood, energy expenditure, neurohumoral function and blood lipids.
Rebecca Moore, Anita S. Wells, Ian A. Macdonald, Carrie Ruxton & Nicholas W. Read 18A
Effects of different sugars on mood and cognitive performance.
P. J. Rogers, P. Polet, A. Aherne, E. A. Atkinson, N. J. Richardson & J. E. L. Day 19A
Effect of graded levels of exercise on body weight, appetite and food intake in normal-weight women consuming their normal diet in their natural environment.
M. Fleming, A. Sepp, A. M. Johnstone, D. A. Hughes, C. A. Reid, N. King, J. Blundell & R. J. Stubbs 19A
The effect of chewing nutritive and non-nutritive material (modified sham feeding model) on subsequent appetite sensations and food intake.
R. J. Stratton, A. Nugent, C. Rutgers & M. Elia 20A
Investigation of salivary hormone secretion following food intake in man.
B. A. Messenger, M. N. Clifford & L. M. Morgan 20A
Influence of a reduced saturated fat and isoenergetic increase in carbohydrate intake on the insulin sensitivity of glucose disposal in middle-aged men.
K. A. Slevin, A. C. Fereday, E. Ah-Sing, J. Wright, A. Irvine, L. M. Morgan, C. M. Williams & D. J. Millward 21A
The effect of marine fish oil supplementation on insulin sensitivity in the dog.
A. J. Irvine, R. Butterwick, T. Watson, D. J. Millward & L. M. Morgan 21A
Relationship between waist:hip ratio, waist circumference and postprandial insulin response in post-menopausal women.
J. A. Lovegrove, H. Osborn, J. W. Wright, V. Mohamed-Ali & C. M. Williams 22A
The effect of the daily ingestion of inulin on fasting and postprandial lipid metabolism in middle-aged men and women.
K. G. Jackson, G. R. J. Taylor, A. M. Clohessy, J. E. Luff, C. S. Thomas & C. M. Williams 22A
Impact of triacylglycerol structure on early metabolic events in adipose tissue.
Lucinda K. M. Summers, Barbara A. Fielding, Vera Ilic, Mo L. Clark, Paul T. Quinlan & Keith N. Frayn 23A
The immunolocalization of apolipoprotein B-48 and B-100 in human tissues.
Norhaizan Mohd Esa, Charlotte Nicols, Michael J. Davies & Barry J. Gould 23A

Effects of fish oil supplementation on *in vitro* oxidation of LDL in subjects with an atherogenic lipoprotein phenotype.
E. Leigh-Firbank, A. M. Minihane, D. Leake, B. A. Griffin, M. C. Murphy & C. M. Williams 24A
Fasting leptin responses to increases in fat balance induced by 50% fat and carbohydrate overfeeding in lean and obese women.
Regina M. McDevitt, Sadaf Farooqi, Stephen O'Rahilly & Andrew M. Prentice 24A
The fatty acid composition of high fat diets affects energy intake and energy expenditure in laboratory rodents.
C. E. Donnellan, F. A. Wallace & P. C. Calder 25A
Within-individual variability in the gastrointestinal handling and metabolism of [1,1,1-^{13}C]tripalmitin.
J. Bennoson, M. A. Humayun, A. E. Jones, A. Hounslow & S. A. Wootton 25A
Mononuclear cell fatty acid composition in healthy subjects supplementing their diets with evening primrose oil or fish oil.
P. Yaqoob, E. A. Newsholme & P. C. Calder 26A
Dietary fat influences the production of Th1- but not Th2-derived cytokines.
F. A. Wallace, P. Yaqoob, E. A. Miles & P. C. Calder 26A
Effects of fish oil, olive oil, butter oil and maize oil on insulin resistance after turpentine-induced inflammation in the rat.
S. S. Iqbal, M. M. SH. Duwaihy, R. A. Al-Shagrawi & D. J. Millward 27A
Dietary fish oil reduces the expression and function of the LDL scavenger receptor in mice.
E. A. Miles, F. A. Wallace & P. C. Calder 27A
Comparison of human plasma, erythrocyte and adipose tissue fatty acid compositions and their use as biomarkers of habitual dietary fatty acid intake.
Carine Beysen & Barbara A. Fielding 28A
Effect of dietary cholesterol on the expression of the microsomal triglyceride transfer protein gene.
Helen M. Sims, Alan Ford, Andrew J. Bennett, David A. White, Michael A. Billett & Andrew M. Salter 28A
Vitamin E transfer from the feed into the egg yolk: effect of dietary supplementation.
P. F. Surai, R. M. McDevitt, B. K. Speake, R. C. Noble & N. H. C. Sparks 29A
Increasing stearoyl Co-A desaturase activity; a potential method to reduce the saturated fatty acid content of lamb meat.
Andrew M. Salter, Sion E. Richards, Richard J. Ward, Maureen T. Travers, Michael C. Barber, Richard G. Vernon & Peter J. Buttery 29A
Tissue-specific profiles of docosahexaenoic acid (DHA) in male chickens depends on the dietary provision.
P. F. Surai, R. M. McDevitt, B. K. Speake, R. C. Noble & N. H. C. Sparks 30A
Carotenoid distribution in tissues of the laying hen depends on dietary supplementation.
P. F. Surai, R. M. McDevitt, B. K. Speake & N. H. C. Sparks 30A
Influence of diet type, potassium and animal species on the absorption of magnesium by ruminants.
O. Adediji & N. F. Suttle 31A
Effect of dietary fatty acids on plasma and adipose tissue fatty acid proportions during pregnancy in the sow.
John A. Rooke 31A
Influence of a reduced saturated fat and isoenergetic increase in carbohydrate intake on postprandial lipaemia in middle-aged men.
A. C. Fereday, K. A. Slevin, E. Ah-Sing, J. Wright, C. M. Williams & D. J. Millward 32A
Acute effects of alcohol on postprandial lipid metabolism.
Anne J. Hawdon, Norhaizan Mohd Esa, John W. Wright, Barry J. Gould & Bruce A. Griffin 32A
Effect of meals of differing composition on postprandial fatty acid composition of LDL.
Joanne Callow, Lucinda K. M. Summers & Keith N. Frayn 33A

Postprandial lipaemic responses to hydrogenated soyabean oil and native soyabean oil in healthy volunteers.
Farideh Shishehbor, Helen M. Roche & Michael J. Gibney 33A
Inappropriate nocturnal postprandial responses amongst shift workers.
David Ribeiro, Shelagh Hampton, Linda Morgan & Josephine Arendt 34A
Paradoxical relationships between adiposity and lipaemia in individuals with an atherogenic lipoprotein phenotype (ALP).
A. M. Minihane, C. Paterson, C. Chapman, E. C. Leigh-Firbank, M. C. Murphy, J. W. Wright, B. A. Griffin & C. M. Williams 34A
Within-individual variability in postprandial lipaemia following oral ingestion of [1,1,1-^{13}C]tripalmitin in healthy young subjects.
M. A. Humayun, J. Bennoson, A. E. Jones, M. Stolinski, A. Hounslow & S. A. Wootton 35A
The effect of self-selected dietary supplements on micronutrient intakes in vegans.
Helen J. Lightowler & G. Jill Davies 35A
Energy distribution and non-starch polysaccharide intake in vegans.
Helen J. Lightowler & G. Jill Davies 36A
Iodine intake and iodine status in vegans.
Helen J. Lightowler & G. Jill Davies 36A
Variation in dietary fibre intake and bowel function in omnivores, vegetarians and vegans.
Amanda L. Cook, John Sykes, G. Jill Davies & Peter W. Dettmar 37A
Dietary intake and lifestyle patterns amongst Surrey teenage girls: preliminary findings.
Janet Catterick, Jacki A. Bishop, Claire L. Ruggles, Lynne S. Siggers & Susan A. New 37A
The food and nutrient intake of students before commencing university and during the first semester.
Paula Moynihan, Rachel Barton, Melanie Kerber & Timothy Butler 38A
Haemoglobin levels of first year female undergraduates.
Sheila Maxwell & Allan Hackett 38A
Changes in nutrient intake after changing to a self-selected vegetarian diet for 18 months.
Frances Robinson & Allan F. Hackett 39A
Low meat eaters in north Glasgow: who are they and what else do they eat?
W. L. Wrieden, M. K. McCluskey, H. Tunstall-Pedoe & C. Bolton-Smith 39A
A reassessment of the contribution of meat to the intake of fat by children.
Lynne Burgess, Allan Hackett, Simon Kirby, Sheila Maxwell & Indira Nathan 40A
The influence of diet on indicators of iron, copper and zinc status in children under 24 months: preliminary findings.
Edward Wallis-Redworth, Eileen Gossage, Jane Morgan & Andrew Taylor 40A
Iron intake in young children in relation to body weight and energy intake.
Abdulaziz M. Al-Othman, Neville R. Belton & Terry R. Kirk 41A
Polyamines in preterm human milk and infant formulas.
Elizabeth L. Hughes, Susan Bardocz & Barbara E. Golden 41A
Is developmental dyslexia a fatty acid deficiency syndrome?
Alexandra J. Richardson, Terese Easton, Anna C. Corrie, Christine Clisby & B. Jacqueline Stordy 42A
The effect of phyto-oestrogen-rich foods on urinary output of phyto-oestrogen metabolites: a pilot study.
Jayne V. Woodside, Mike Morton & Anthony Leathem 42A
Dose response effect with dietary meat on faecal *N*-nitrosocompound and nitrogen excretion in subjects.
R. Hughes, J. R. A. Pollock & S. Bingham 43A
Inhibition of mutagen formation by organosulfur compounds.
Venetia Trompeta & John O'Brien 43A

Effects of antioxidant vitamin supplementation on markers of DNA damage and plasma antioxidants.
Emily R. Beatty, Timothy G. England, Catherine A. Geissler, Okezie I. Aruoma & Barry Halliwell 44A
The effects of vitamin C supplementation on dynamic lung function: a double-blind cross-over trial.
A. Keating & A. Tyler 44A
Diet and gallstones in Saudi women.
A. M. Al-Kudsi & D. J. Millward 45A
Insulin-like growth factor binding protein-1: a potential marker for carbohydrate intake?
A. Greenhalgh, J. E. Cade, S. Sharma, A. H. Heald, J. Sampayo, M. Gibson, A. White & J. K. Cruickshank 45A
The relative validity of practice nurse dietary assessment in general practice.
R. L. Thompson, P. S. Little, J. Barnett & B. M. Margetts 46A
Suitability and acceptability of a dietary interview-survey designed to identify barriers to food selection, by denture and non-denture wearers: a pilot study.
Claire L. Moody & Paula J. Moynihan 46A
Adequacy of revised UK reference data for nutritional assessment of 7–8 year olds.
Shirley-Anne H. Savage, John J. Reilly, Carrie Ruxton & Terry R. Kirk 47A
Accuracy of estimates of energy intake using the multiple-pass 24 h recall method in young children and adult women: a doubly-labelled water study.
Rachel K. Johnson, Rebecca P. Soultanakis, Michael I. Goran & Dwight E. Matthews 47A
Refinements used in accurate assessment of dietary fatty acid intake using a standard nutrient database.
Colette N. M. Kelly, Ruth D. Smith, Allan G. Stephens & Christine M. Williams 48A
Minimizing errors associated with coding 24 h dietary recalls for INTERMAP in the UK.
R. Drake, N. Seres, S. Blackwell. B. Dennis, J. Stamler & P. Elliott 48A
Evaluation of a bar-code system for nutrient analysis in dietary surveys.
Susan Eley, Annie S. Anderson, Linda Maher & Michael E. J. Lean 49A
Assessing nutritional knowledge in prepubescent children using 'draw and tell' methodology.
K. I. Pirie 49A
Evidence-based practice: its relevance to nutritional intervention programmes.
Fatemeh Rabiee 50A
The calcium and phosphorus intakes of Shenyang women in the north-east of the People's Republic of China.
Liya Yan, Xiaohong Wang, Ann Prentice & Michael H. Golden 50A
15-Hydroxy-prostaglandin dehydrogenase activity is altered in a rat model of the fetal origins of adult hypertension.
Rachel C. Sherman, Alan A. Jackson & Simon C. Langley-Evans 51A
Impairment of fetal kidney development induced by maternal protein restriction in the rat.
Simon C. Langley-Evans & Simon J. M. Welham 51A
Body fatness and circulating triacylglycerol concentration in relation to pre- and postnatal dietary experience in the rat.
Claire L. Pickard, Maria H. Hurley & H. David McCarthy 52A
Influence of pre- and postnatal diet upon skeletal muscle fibre composition in the rat.
Claire L. Pickard & H. David McCarthy 52A
Early maternal dietary protein manipulation and adult offspring cholesterol metabolism.
M. Mortaz, T. J. Cole & A. Lucas 53A
Women's perceptions of diet, folic acid and pregnancy.
Monique M. Raats, Lucy Thorpe & Caroline Hurren 53A
Dietary restraint and weight gain during pregnancy.
Rana Drake, S. Reddy & J. Davies 54A
Influence of maternal vitamin C intake on collagen concentration during fetal development in the guinea-pig.
Shampa Das & Hilary J. Powers 54A

Whole-body protein turnover in pregnant English women of different body mass index.
S. L. Duggleby & A. A. Jackson 55A
Luminal riboflavin is essential for normal morphological development of the gastrointestinal tract.
Catherine A. Yates & Hilary J. Powers 55A
Food specific immunoglobulin (IgG) levels and allergic outcome in preterm infants.
F. J. Norris, M. Larkin, C. M. Williams, S. Deacock, J. B. Morgan & S. M. Hampton 56A
Use of red palm oil for promotion of maternal vitamin A status.
G. Lietz, G. Mulokozi, C. J. K. Henry & A. Tomkins 56A
The effect of breast-feeding on vitamin A status of infants of human immunodeficiency virus positive (HIV+) women with or without vitamin A supplementation.
Anne S. W. Mburu, Anna Coutsoudis, Kuben Pillay, Christine A. Northrop-Clewes & David I. Thurnham 57A
Assessment of dietary intake of vitamin A and iron by lactating Indian women.
F. S. W. McCullough, C. A. Northrop-Clewes, B. S. Das & D. I. Thurnham 57A
Effects of vitamin A deficiency during pregnancy on reproductive outcome and plasma vitamin E and leptin concentrations in the rat.
C. Antipatis, G. Grant, N. Hoggard & C. J. Ashworth 58A
Assessment of goitre prevalence and nutritional status of schoolchildren in the mountainous region of Surakarta, Indonesia.
Pam Kauldhar, Jane Earland, Richard Tovee, Dr Bambang & Dr Sengeng 58A
Reproducibility of measurement of resting metabolic rate in boys and girls aged 6-11 years.
Jonathan C. Ventham & John J. Reilly 59A
Whole-body plethysmography compared with hydrodensitometry for body composition analysis in children aged 8-12 years.
Odile Dewit, N. J. Fuller, M. Elia & J. C. K. Wells 59A
Influence of an electrolyte beverage on short-term rehydration following a prolonged field exercise.
J. L. J. Bilzon, E. G. Scarpello, R. J. Pethybridge, A. J. Allsopp & S. A. Wootton 60A
The effects of rehydration beverage sodium concentration on restoration of fluid balance and plasma volume.
C. Vincent, S. A. Wootton, J. L. J. Bilzon & A. J. Allsopp 60A
Measured calcium intakes of breast-fed rural Gambian infants aged 3 and 12 months.
Landing M. A. Jarjou, Ann Prentice, W. Andy Coward, Bakary Dibba, Yankuba Sawo, Ken Day & Susan Fairweather-Tait 61A
Effect of calcium supplementation on plasma osteocalcin concentration of Gambian children.
Bakary Dibba, Ann Prentice, Dorothy Stirling & Elizabeth M. E. Poskitt 61A
Impact of a child-specific dual-energy X-ray absorptiometry analysis prototype on bone mineral content and body composition in children aged 8 to 12 years.
N. J. Fuller, J. C. K. Wells, O. Dewit, W. Hipgrave, M. Elia & M. S. Fewtrell 62A
Nutrient intake in peri and early post-menopausal Scottish women: preliminary findings from a longitudinal study on bone health.
H. M. Macdonald, S. A. New, M. H. N. Golden, D. A. Grubb & D. M. Reid 62A
Validity of tissue composition in leg sections obtained by dual-energy X-ray absorptiometry against magnetic resonance imaging as reference.
N. J. Fuller, C. R. Hardingham, N. Screaton, M. Graves, A. K. Dixon, W. Hipgrave & M. Elia 63A
Collagen crosslink ratios in bone and urine of guinea-pigs fed with graded intakes of vitamin C.
Christopher J. Bates & Harumi Tsuchiya 63A
Nutrient intake and bone health in ballet dancers and healthy age-matched controls: preliminary findings from a longitudinal study on peak bone mass development in adolescent females.
Susan A. New, Adeleye Samuel, Sally-Ann T. Lowe & Nicola J. Keay 64A
Dietary intake and bone health in young adolescent females: a comparison between elite gymnasts and healthy age-matched controls.
Lucy-Ann Prideaux, Jacki A. Bishop & Susan A. New 64A

Food intake and bone mineral status of Beijing adolescent girls.
Xueqin Du, Heather Greenfield, David R. Fraser & Keyou Ge 65A
Restoration of full reproductive capacity in male and female *ob/ob* mice by chronic leptin administration.
S. M. McBennett, E. Smyth & J. F. Andrews 68A
Comparison of dietary restriction alone with leptin treatment on spermatogenesis in male *ob/ob* mice.
S. M. McBennett, E. Smyth & J. F. Andrews 68A
Circulating form of human leptin.
V. Ogier, D. Lambert, L. Meyer, O. Ziegler, J. P. Nicolas & L. Mejean 69A
Effects of adrenaline, noradrenaline and isoprenaline on circulating leptin levels in mice.
Alison Mostyn, D. Vernon Rayner & Paul Trayhurn 69A
Effect of cholera toxin on glutamine metabolism and transport in rabbit ileum.
M. Abely, P. Dallet & J. F. Desjeux 70A
Effects of ruminal or postruminal fish oil supply on conjugated linoleic acid (CLA) content of bovine milk fat.
Y. Chilliard, J. M. Chardigny, J. Chabrot, A. Ollier, J. L. Sebedio & M. Doreau 70A
Copper supplementation in middle aged people decreased the susceptibility to peroxidation of erythrocytes.
E. Rock, A. Mazur, A-M. Rock, C. Coudray, Y. Rayssiguier, C. Kehoe, J. M. O'Connor, M. P. Bonham & J. J. Strain 71A
Impact of endogenous ^{13}C-labelling of a foodstuff on $^{13}CO_2$ output during stable-isotope studies of postprandial fat metabolism.
C. J. Seal & J. C. Mathers 71A
Effects of changes in polyamine metabolism on DNA methylation during growth inhibition of human colonic cancer cells.
Benoit Duranton, Gerard Keith, Rene Schleiffer, Christian Bergmann, Francine Gosse & Francis Raul 72A
Guar gum increases but dietary cholesterol suppresses intestinal tumourigenesis in the *Min* mouse.
C. E. Vallance, J. Coaker & J. C. Mathers 72A
Thermogenic effect of slight hyperglycaemia during a lipid infusion.
V. Rigalleau, M. Beylot, M. Laville, C. Pachiaudi, S. Normand & H. Gin 73A
Effects of the nature and the quantity of dietary lipids on the expression of retinoic acid (RAR) and triiodothyronine (TR) nuclear receptors in the rat liver.
Catherine Noel-Suberville, Stephane Bonilla, Anabelle Redonnet & Paul Higueret 73A
Characterization of the regulatory regions of the glucose-6 phosphatase gene promoter in HepG2 cells.
Fabienne Rajas, Stephane Duverenay, Sandrine Tarpin & Gilles Mithieux 74A
Clinical features of food allergy in France based on 703 patients (1116 cases of food allergy).
G. Kanny, P. Lemerdy, F. Rance, G. Dutau & D. A. Moneret-Vautrin 74A
Epidemiological study of food allergy in France.
D. A. Moneret-Vautrin, G. Kanny & F. Thevenin 75A
Energy balance during post-partum amenorrhea among chronically malnourished women in rural Bangladesh.
Sophie Vinoy, Lyliane Rosetta & C. G. Nicholas Mascie-Taylor 75A
The effect of the 677C->T mutation on plasma homocysteine and 5,10-methylenetetrahydrofolate reductase (MTHFR) thermolability in healthy volunteers.
A. Chango, S. Droesch, M. Pfister, F. Boisson, F. Barbé, M. Pariset, G. Nuel, S. Frémont, D. S. Rosenblatt & J. P. Nicolas 76A
Thermoneutral temperature of Aston strain *ob/ob* mice acclimated to warm (30°) *v.* cold (20°) environments.
J. F. Andrews & S. M. McBennett 76A
Magnesium and calcium absorption from a sulfate-rich natural mineral water in ileostomy subjects.
Maurice J. Arnaud, Lena Normén & Henrik Andersson 77A

Effects of pine seed oil on hypercholesterolemic transgenic mice.
Gaelle Asset, Eric Bauge, Robert L. Wolff, Jean-Charles Fruchart & Jean Dallongeville 77A
Duodenal passage of α-conglycinin from soyabean in the preruminant calf.
Rita Cabral, Michele Formal, Lucile Montagne, Rene Toullec & Jean-Paul Lalles 78A
Compared with olfactory and gustatory stimuli, visual stimuli are operative cues for the estimation by healthy young men of the nutritional composition of all kinds of biscuits.
M. Chabert, B. Le Roux & J. Louis-Sylvestre 78A
Bile acid synthesis by neutral (cholesterol-7α-hydroxylase) or acidic pathway (sterol-27-hydroxylase) in hamsters sensitive or resistant to diet-induced cholelithiasis.
M. Combettes-Souverain, M. Souidi, N. Boehler, J. Ferezou & C. Lutton 79A
Gastrin-stimulated pancreatic protein synthesis and activation of phosphatidyl inositol 3 (PI-3) kinase and p70-S6 kinase systems by gastrin via pancreatic cholecystokinin B/gastrin receptors.
C. Desbois, I. Le Huerou-Luron, A. Estival, M. Dufresne, P. Clerc, V. Rome, F. Clemente, P. Guilloteau & D. Fourmy 79A
Optimization of an *in vitro* gas production technique for measuring fibrolytic activity of equine intestinal contents.
C. Drevillon, R. S. Lowman, C. Drogoul, D. Cuddeford & V. Julliand 80A
Fibrolytic activities in caecal and colonic microbial ecosystems in ponies: effect of the presentation of the forage.
C. Drogoul, B. Mugnier, E. Mansuy & V. Julliand 80A
Effects of protected methionine in a fattening diet for culled cows and heifers.
M. Evrard, C. Van Eenaeme, J. L. Hornick, A. Clinquart, P. Raskin & L. Istasse 81A
Oxidative stress and vitamin E status in experimental diabetes.
Christine Feillet-Coudray, Edmond Rock, Katarzyna Grzelkowska, Anne Partier, Dominique Dardevet, Charles Coudray & Andre Mazur 81A
Feeding pattern of sucking rabbits. Effects of litter size.
Laurence Fortun-Lamothe, Thierry Gidenne & Claudio Scapinello 82A
Influence of sucrose or fat on postprandial ^{15}N-labelled milk protein deamination in fasting subjects.
Claire Gaudichon, Sylvain Mahé, Robert Benamouzig, Catherine Luengo, Helene Fouillet, Sophie Daré & Daniel Tomé 82A
Effects of increasing dietary lipid levels on lipogenic enzyme activities in liver of rainbow trout (*Oncorhynchus mykiss*).
A. Gelineau, G. Corraze, L. Larroquet & T. Boujard 83A
Early nutrition modulates adipose tissue development in neonatal pigs.
V. Gerfault, J. Mourot, I. Louveau & J. Le Dividich 83A
Effects of feed restriction during fattening on muscle lipid traits in the rabbit.
Florence Gondret, François Lebas & Michel Bonneau 84A
The technological treatment of bovine milk: influence on cell culture.
Christinae Guimont & Guy Linden 84A
Family resemblance in calcium intakes in the Stanislas Cohort.
Bernard Herbeth, Anne Lluch, Edith Lecomte & Gerard Siest 85A
Contribution of mineral waters to dietary calcium intake in the French SU.VI.MAX cohort.
Serge Hercberg, Maurice Arnaud, Paul Preziosi, Pilar Galan, Marjorie Zarebska, Bernadette Fieux & Pierre Valeix 85A
Metabolic differentiation of the bovine heart muscle during fetal development.
J. F. Hocquette, C. Piot, J. H. Veerkamp, B. Picard & Y. Geay 86A
In vitro digestibility of prickly pear protein.
Radia Lamghari El Kossori, Christian Villaume, Es-Saddik El Boustani, Marie-Noelle Maucourt, Yves Sauvaire & Luc Mejean 86A
Composition and nutritional prospects of prickly pear fruit.
Radia Lamghari El Kossori, Christian Villaume, Es-Saddik El Boustani, Yves Sauvaire & Luc Mejean 87A

Influence of meal time and stress induced by mental load on postprandial energy expenditure.
Catherine Le Fur, Jean Louis Edme, Patrick Devos, Alain Lancry, Claire Mounier-Vehier, Laurence Guedon, Margarita Kroumova & Monique Romon 87A
Vegetarian meals which are proposed in collective catering may contribute to the recommended dietary allowances.
J. M. Lecerf, C. Bila & C. Rakotofiringa 88A
Physiological intake of chicory's fructo oligosaccharides does not change blood lipids and lipoproteins in healthy males.
J. M. Lecerf, G. Luc, H. Parra & C. Ecochart 88A
Caseinomacropeptide release in human jejenum during digestion of a concentrated casein meal.
N. Ledoux, S. Mahe, M. Dubarry, M. Bourras, R. Benamouzig & D. Tome 89A
Effects of fatty acids on proliferation and differentiation of cultured pig pre-adipocytes.
N. Louapre, V. Gerfault & J. Mourot 89A
Contribution of dietary glucose to milk protein synthesis in ruminants.
François Lucas, Guido Rychen, Ximo Rubert-Aleman & Gerard Blanchart 90A
Magnesium deficiency enhances immune stress response by altering cell calcium homeostasis.
Corinne Malpuech-Brugere, Edmond Rock, Catherine Astier, Wojciech Nowacki, Andrzej Mazur & Yves Rayssiguier 90A
Intake and feed efficiency of brown trout selected for growth.
Muriel Mambrini, Edwige Quillet, Laurent Labbe & Bernard Chevassus-Au-Louis 91A
Inhibitory effect of procyanidin-containing extracts on LDL oxidation *in vitro*.
Andrzej Mazur, Dominique Bayle, Claudine Lab, Edmond Rock & Yves Rayssiguier 91A
Reduced efficacy of leptin on weight reduction in *ob/ob* mice when administered at thermoneutrality.
S. M. McBennett, P. M. Mann & J. F. Andrews 92A
Expectations of patients in weight management.
L. Meyer, L. Mejean, B. Guerci, P. Drouin & O. Ziegler 92A
Optimization of anti-*Listeria monocytogenes* combinations of bacteriocins (nisin, curvaticin 13) and lactoperoxidase system in broth and milk.
Anne Bouttefroy, Nora Boussouel, Anne-Marie Revol-Junelles & Jean-Bernard Milliere 93A
Differential regulation of glutamine and glutamate transport during Caco-2 cell differentiation: transcriptional regulation of the glutamate transporter EAATI.
Agnes Mordrelle, Cyrille Costa, Jean-François Huneau, Eric Jullian & Daniel Tomé 93A
The cholesterol-lowering effect of guar gum is accompanied by an increase of bile acid digestive pools and intestinal reabsorption.
S. Moriceau, C. Besson, C. Moundras, C. Rémésy, C. Morand & C. Demigné 94A
Bioavailability of starch, rate of glucose absorption and intestinal metabolism in pigs.
Lionel Noah, Gerard Lecannu, Pascale Maugere, Michel Krempf & Martine Champ 94A
Thyroid status affects the cellular action of vitamin A in adult mouse brain.
Veronique Pallet, Valerie Enderlin, Serge Alfos, Denise Higueret, Robert Jaffard & Paul Higueret 95A
β-Lactoglobulin modifications characterized by mass spectrophotometry lead to different activity on hybridoma cell culture.
N. S. Palupi, P. Franck, F. Belleville-Nabet, P. Nabet, B. Dousset, G. Linden & C. Guimont 95A
Global analysis of two-dimensional protein patterns of the lactic acid bacterium *Streptococcus thermophilus*.
Clarisse Perrin, Patrice Bracquart, Jean Luc Gaillard & Christiane Guimont 96A
Effects of genistein and daidzein on ovariectomy-induced bone loss in rats.
Christel Picherit, Cecile Desir, Veronique Coxam, Seraphin Katicouliball, Marie-Jeanne Davicco, Patrice Lebecque & Jean-Pierre Barlet 96A
Role of cytokines in the decrease of food intake during human immunodeficiency virus (HIV) infection.
A. Pradignac, M. Kazes, R. Sapin, J. M. Lang, J. L. Schlienger & J. M. Danion 97A

Cross-population differences in Mauritian and French mothers' white adipose tissue (WAT) and milk and their influences on the erythrocyte phospholipid composition of their breastfed infants.
P. Pugo-Gunsam, P. Guesnet, A. H. Subratty, D. A. Rajcoomar, J. Gore, C. Maurage & C. Couet 97A
Food habits and growth of children of Subsaharan African ancestry born to immigrant parents and French children.
F. Roville-Sausse & F. Sossah 98A
Nutritional value of a sorghum-based food complemented with soyabean proteins for African people.
Michel Rubayiza, Michel Linder, Radia Lamghari, Luc Mejean & Michel Parmentier 98A
Does dietary macronutrient composition relate to adiposity in young children?
C. H. S. Ruxton, T. R. Kirk & N. R. Belton 99A
Postprandial porto-arterial kinetics of ^{15}N, amino nitrogen, glucose and galactose in the growing pig after ingestion of milk, yoghurt and sterilized yoghurt.
G. Rychen, S. Jurjanz, J. M. Antoine, P. M. Mertes & F. Laurent 99A
Cholesterol uptake and hydroxymethylglutaryl (HMG)-CoA reductase activity of Caco-2-cell-line clones.
Severine Salvini, Monique Charbonnier, Christian Alquier & Denis Lairon 100A
Effects of *Aspergillus fumigatus* phytase on phosphorus digestibility, phosphorus excretion, bone strength and performance in pigs.
Carlos Simões Nunes & Patrick Guggenbuhl 100A
Effect of chronic heat exposure on liver insulin receptor number and affinity in broiler chickens.
Soraya Temim, Sophie Tesseraud, Rosa Peresson, Michel Derouet, Christophe Leveque & Mohamed Taouis 101A
Effects of dietary lipid source on membrane phospholipid composition and lipid mobilization in perirenal adipose tissue.
Ana I. Tueros, M. Teresa Macarulla, M. Isabel Torres, Valentina Ruiz, Javier Sánchez & María P. Portillo 101A
Food intake of lactating women in rural Bangladesh.
Sophie Vinoy, C. G. Nicholas Mascie-Taylor & Lyliane Rosetta 102A
Specific under-reporting of "non-meals" and desserts by subjects suspected of under-reporting energy intake.
Stephen Whybrow & Terry R. Kirk 102A
Microencapsulation of marine oils for use in food fortification.
K. M. Younger & M. E. Ni Neil 103A
Effect of dietary energy sources and rearing temperature on lipogenesis in rainbow trout.
G. Corraze, F. Medale, L. Larroquet & J. Bautista 103A
Effects of polyunsaturated fatty acids and peroxisome proliferators on stearoyl-CoA desaturase 1 gene expression in chicken hepatoma cells.
Christian Diot, Pascal Lefevre, Eddy Tripon, Francois De Quelen & Madeleine Douaire 104A
Hepatic lipogenesis in relation to fatty liver in the goose.
Dominique Hermier, Jacques Mourot, Gerard Guy & Philippe Peiniau 104A
Differential liver lipid channelling in relation to susceptibility to hepatic steatosis in the goose.
Marie-Rose Salichon, Gerard Guy, Rosaria Peresson & Dominique Hermier 105A
Effects of dietary coconut oil on the hepatic synthesis of apolipoprotein B, microsomal triacylglycerol transfer protein and LDL-receptor in the preruminant calf.
D. Gruffat, B. Graulet, D. Durand & D. Bauchart 105A
Contribution of peroxisomes to fatty acid oxidation in tissues from preruminant calves: effects of the nature of dietary fatty acids.
C. Piot, J. H. Veerkamp, D. Bauchart & J. F. Hocquette 106A
Lipogenesis in isolated adipocytes from two subcutaneous adipose tissues in Large White and Meishan pigs.
M. Kouba & J. Mourot 106A

Comparison of adipocytes from subcutaneous and intramuscular adipose tissues in pigs.
J. Mourot, G. Salvatori & M. Kouba 107A
Activity and transcription level of malic enzyme (EC1.1.1.40) in muscles of Large White and Meishan pigs.
C. Renard, J. Mourot, M. Kouba & G. Salvatori 107A
Effect of refeeding on two mRNA species of lipoprotein lipase in adipose tissue and cardiac muscle of sheep.
M. Bonnet, Y. Faulconnier, C. Leroux, F. Bocquier, P. Martin & Y. Chilliard 108A
Pre- and postprandial changes in plasma leptin and insulin concentrations during underfeeding and refeeding in dry cows.
C. Delavaud, Y. Faulconnier, F. Bocquier & Y. Chilliard 108A
Nutritional regulation of lipoprotein lipase activity in bovine adipose tissues and muscles.
Y. Faulconnier, M. Bonnet, J. Flechet, F. Bocquier & Y. Chilliard 109A
Disease-related malnutrition: existence, causes and consequences, and clinical and financial benefits of nutritional intervention.
Ceri J. Green 111A
Evidence and consequences of disease-related malnutrition in the community.
Jackie Edington 111A
An evaluation of the use of enteral nutritional supplements post operatively in malnourished surgical patients.
A. H. Beattie, J. P. Baxter, A. T. Prach & C. R. Pennington 112A
Can the true prevalence of malnutrition be assessed by admission to hospital?
N. C. Strain, C. E. Wright, K. Ward & J. L. Shaffer 112A
A double-blind, controlled trial of glutamine supplementation in parenteral nutrition.
C. P. Jamieson, D. Murphy, C. Archer, H. V. Fawcett, O. A. Obeid & J. Powell-Tuck 113A
Energy prescribed and energy received during parenteral nutrition in children.
Susan Murray, Isabel Smith, Halina Nawrocka, Susan Hill, Sarah Macdonald, Margaret Lawson, Sarah Long, Anthony Reynolds, Kathryn Bethune & Agostino Pierro 113A
Fluid balance status of patients referred for nutritional support.
Dileepraj N. Lobo, Kristine Bjarnason, Joy Field, Brian J. Rowlands & Simon P. Allison 114A
Audit of a home enteral feeding service against the British Association for Parenteral and Enteral Nutrition (BAPEN) standards.
Helen M. Hughes & Susan Lloyd 114A
Functional status of adult patients on home enteral tube feeding in Dublin.
Edel McNamara, Philomena Flood & Nicholas P. Kennedy 115A
Complications experienced by patients on home enteral tube feeding in Dublin.
Edel McNamara, Philomena Flood & Nicholas P. Kennedy 115A
One years experience of a multidisciplinary percutaneous endoscopic gastrostomy (PEG) clinic.
K. Arnold, S. O'Riordan, L. Clark & D. Parnell 116A
High international normalized ratio (INR) is a potential problem in patients referred for percutaneous endoscopic gastrostomy.
Doris H. L. Ng, Lynne Timmis & Timothy E. Bowling 116A
Monitoring changes in allograft function after small bowel transplantation in children.
S. V. Beath, A. Daly, S. Clark, D. A. Kelly, J. A. C. Buckels, A. D. Mayer & J. De Ville Degoyet 117A
Feeding practices in special care baby units: a survey of units in the United Kingdom.
L. D. Marriott, J. A. Bishop, K. D. Foote, A. C. Kimber & J. B. Morgan 117A
The relative importance of endoluminal and extraluminal colonization in the pathogenesis of catheter related sepsis in the central venous catheter.
Jin J. Bong, Peter Kite, Brian M. Dobbins, Mark H. Wilcox & Michael J. McMahon 118A
Tunnelled central venous catheters: insertion best practised in radiology suite with screening facilities?
Paul Kitchen, Clive Onnie, James Hart, Angie Davidson & Alastair Forbes 118A

Nutritional status of patients on admission to acute services of a London teaching hospital.
Shona Vlaming, Anzonette Biehler, Santanu Chattopadhyay, Crawford Jamieson, Adam Cunliffe & Jeremy Powell-Tuck 119A
Development and validation of nutritional risk assessment for routine use in an acute hospital Trust.
Rachael Barlow, Donna G. Duncan, Judyth Jenkins & Kerenza Hood 119A
Validation of a nutritional screening tool: testing the reliability and validity.
S. T. Burden, S. Bodey, Y. J. Bradburn, F. England, S. Murdoch, A. L. Thompson, J. M. Sim & A. M. Sowerbutts 120A
Nurse awareness and knowledge of nutrition.
Matthew Lough, Jane Collier, Margaret New & James Rose 120A
Treatment with ornithine aspartate (Hepa-Merz) restores muscle protein synthesis responsiveness to feeding in patients with liver cirrhosis.
N. Reynolds, S. Downie, K. Smith & M. J. Rennie 121A
The effect of oral glutamine supplementation on growth faltering in Gambian infants.
E. A. Williams, M. Elia, L. Umar & P. G. Lunn 121A
The effect of a single exercise session on postprandial chylomicron, VLDL and total plasma triacylglycerol concentrations.
Jason M. R. Gill & Adrianne E. Hardman 122A
Potentiation of postprandial lipaemia by ethanol.
Guy Reid, Michelle Grady, Barbara A. Fielding, Sandy M. Humphreys, Kevin Evans & Keith N. Frayn 122A
The metabolic response to feeding in weight-losing patients with advanced pancreatic cancer.
Matthew D. Barber, James A. Ross & Kenneth C. H. Fearon 123A
Dietary supplementation with eicosapentaenoic acid shows human pancreatic cancer growth in SCID mice.
Matthew D. Barber, Kenneth C. H. Fearon & James A. Ross 123A
The level of protein in the diet of pregnant rats affects lymphocyte proliferation and natural killer cell activity in the offspring at weaning.
P. C. Calder & P. Yaqoob 124A
Variability in the composition of fat-free mass in children aged 8–12 years.
J. C. K. Wells, N. J. Fuller, O. Dewit, M. S. Fewtrell, M. Elia & T. J. Cole 124A
Energy content of abnormal losses from intensive care patients.
Clare Reid, Kath Shipley, G. Jennings, M. Elia & I. T. Campbell 125A
Age related changes in intestinal permeability in a rural West African population.
D. I. Campbell, P. G. Lunn, L. Umar & M. Elia 125A
The value of modified sham feeding as a model to study pre-absorptive changes in appetite sensations.
Rebecca J. Stratton, Anne Nugent & Marinos Elia 126A
The incidence of malnutrition in medical patients admitted to a hospital in south London.
E. Weekes 126A
Growth of paediatric and adult home enteral tube feeding between 1986 and 1998 in the Cambridge health district.
Odile Dewit, Sylvia M. Cottee & Nicola McLean 127A
Health-related quality of life and nutritional outcomes after percutaneous endoscopic gastrostomy (PEG): A prospective study.
Elaine Bennerman, John Pendlebury, Fiona Phillips & Subrata Ghosh 127A
Hand-grip strength in cirrhosis: Its relationship to nutritional status and severity of liver disease.
Angela M. Madden & Marsha Y. Morgan 128A
Energy balance in chronic haemodialysis.
D. Fraser, Marie Keegan, Michelle Harvie, M. C. Venning & I. T. Campbell 128A
Circulating concentrations of vitamins D, C and thiamin in disabled patients on long-term enteral tube feeding.
Odile Dewit, H. Finch, A. Sayer, G. Jennings, J. Shaw & M. Elia 129A

Production of tumour necrosis factor-α by blood mononuclear cells increases with age and with BMI in healthy women.
P. Yaqoob, E. A. Newsholme & P. C. Calder 129A
Lack of effectiveness of short-term intravenous nutrition (IVN) in restoring plasma antioxidant status post surgery.
Malcolm Baines, Mark Hartley & Alan Shenkin 130A
"Chylomicron" composition following oral and intravenous administration of a lipid emulsion.
Kevin Evans, Mo L. Clark & Keith N. Frayn 130A
Over 75s' annual health assessments: an opportunity to identify individuals 'at-risk' of under-nutrition?
Elaine Bannerman, J. J. Reilly, W. J. Maclennan, T. Kirk & F. Pender 131A
Outcome of home enteral tube feeding in adults, in the Cambridge health district, between 1986 and 1998.
Odile Dewit, Sylvia M. Cottee & Marinos Elia 131A
Postprandial lipaemia after isoenergetic 3 d high-carbohydrate and high-fat diets.
Christina Koutsari, Dale Malkova & Adrianne E. Hardman 132A
Distress from hunger in patients receiving parenteral nutrition at home and hospital.
Rebecca J. Stratton & Marinos Elia 132A
Resting energy expenditure should be measured in patients with cirrhosis, not predicted.
Angela M. Madden & Marsha Y. Morgan 133A
The influence of sex on changes in body composition in advanced non-small-cell lung cancer (NSCLC) patients undergoing chemotherapy.
Michelle N. Harvie, I. T. Campbell, N. Thatcher, A. Howell & A. D. Baildam 133A
Comparison of fundamental bio-electrical impedance analysis and anthropometric methods for predicting magnetic resonance imaging estimates of lower limb muscle cross-sectional area.
N. J. Fuller, C. R. Hardingham, M. Graves, N. Screaton, A. K. Dixon, L. C. Ward & M. Elia 134A
The use of multiple frequency bioimpedance to assess fluid balance in critical illness.
I. T. Campbell, Anila Khan, M. Bolton, P. Nightingale, M. O. Columb & S. J. Brookes 134A
Plasma vitamin E and urate levels in cystic fibrosis liver disease.
Simon C. Ling, Peter Galloway, Anne S. Hollman, Lawrence T. Weaver & James Y. Paton 135A
Dietary eicosapentaenoic acid modulates the immune system in Balb/c mice.
Matthew D. Barber, Kenneth C. H. Fearon & James A. Ross 135A
The percentage of mononuclear cells expressing adhesion molecule-1 increases with age.
P. Yaqoob, E. A. Newsholme & P. C. Calder 136A
The stability of vitamin E in parenteral nutrition (PN) mixtures during administration.
Michael C. Allwood & Helen Martin 136A
The stability of glutamine after addition to a 3-compartment TPN bag.
Gil Hardy & Adele Jones 137A
Assessing the potential for changing the pharmacist's role in prescribing neonatal parenteral nutrition.
M. Powell, H. Martin, J. Puntis & I. Goss 137A
Outcomes of percutaneous endoscopic gastrostomy tube insertion 1991–7.
Bernice L. Litchfield & Jeremy M. D. Nightingale 138A
Home parenteral nutrition training: A comparative study of cost effectiveness and quality of life issues between hospital and community.
J. Varden, A. Myers & T. Catling 138A
Is the impact of a nutrition support team on catheter-related sepsis sustained in the long term?
Judith McGovern & Ian W. Fellows 139A
The prevalence of malnutrition in patients admitted to Care of the Elderly wards.
Joanne L. Watson 139A
Perception of supplementary sip feeds given to patients by nursing assistants working in a variety of settings in Northamptonshire.
Mabel Blades 140A

Dietary intake of adults, with and without pressure sores, treated by community nursing staff.
S. M. Green, H. Winterberg, P. J. Franks, C. J. Moffatt, C. Eberhardie & S. McLaren 140A
Audit of General Practitioner's GP knowledge of and satisfaction with the service provided by the nutrition support team to patients at home receiving artificial nutrition.
Carole-Anne McAtear 141A
A cross-sectional study of nutritional outcomes after percutaneous endoscopic gastrostomy (PEG): results and problems of assessment.
E. Bannerman, J. Pendlebury, F. Phillips & S. Ghosh 141A
An audit of prescribing patterns of oral nutritional supplements in primary care.
Muriel J. Gall, Juliette E. Harmer, Heather J. Wanstall & Annmarie J. Ruston 142A
The evaluation of a triacylglycerol (TAG) analysis in gastric aspirates as a measure of gastric emptying in critically ill patients.
Lynda Parke, Joan Martyn, Catherine O'Malley, Kate Younger, John Tighe & Kieran Crowley 142A
Performing some simple anthropometric measurements on residents in nursing homes: how practical is it?
Vera Todorovic, Ann Micklewright, Mark Myatt & Hilary Kemp 143A
Continuous audit of percutaneous endoscopic gastrostomy for long-term enteral nutrition.
J. P. Baxter, J. M. Tait & C. R. Pennington 143A
An audit of growth rate for infants on the neonatal unit, Children's Hospital, Leicester Royal Infirmary NHS Trust.
Sara Macdowell 144A
An evaluation of estimating patients weights as an accurate method when compared with actual weight.
Carole-Anne McAtear 144A
Attitudes of nutrition nurses to their role, to nutrition education and to relationships with dietitians.
Lynne Scott & Elizabeth A. Belton 145A
Improved prescribing of parenteral nutrition following revision of standard available regimens.
Mike Stroud, Fiona Macleod & Alan Jackson 145A
Changing feeding practices in Intensive care 1996–1998.
Alison M. Young, Libby Johnson & Jannette Kirkham 146A
Nutrition in nurse education.
Carolyn Davison 146A
Catering for elderly hospital patients: a study of food choice in hip-fracture patients and the selection of suitable foods for supplementation.
M. Lumbers, M. C. Murphy, V. Bowers, A. Panayidou, M. W. J. Older & S. A. New 148A
Perceptions of portion weights of different shapes of chips.
S. Youngson & A. Wise 150A
Edentulous persons attitudes and perceived barriers to increasing fruit and vegetable consumption.
P. Moynihan, R. Higginson & C. Moody 150A
Relationships between dietary restraint, dietary iron intake and iron status in adolescent females.
C. B. Mulvihill, P. J. Rogers & G. J. Davies 151A
Effect of graded levels of exercise on body weight, appetite and food intake in normal-weight men consuming their normal diet in their natural environment.
R. J. Stubbs, A. Sepp, M. Fleming, A. M. Johnstone, D. A. Hughes, C. A. Reid, N. King & J. Blundell 151A
A comparison between the National Food Survey (NFS) and the Family Expenditure Survey (FES) data.
S. E. Paterakis & M. Nelson 152A
Effect of healthy-eating advice and consumption of reduced-fat 'ready meals' on nutrient intake in healthy free-living volunteers.
J. Cardew, J. Hignett & S. Seal 152A

Food availability at a local level: do the poor have worse choice?
A. J. M. Donkin, E. A. Dowler, S. J. Stevenson & S. A. Turner 153A
Socioeconomic differences in the dietary trends in Karachi.
R. Hakeem & M. Ziaee 153A
Determinants of food choice at home in families in UK and in Pakistan.
R. Hakeem, J. Thomas & S. H. Badruddin 154A
The effect of nutritional supplementation on weight and clinical management of patients with human immunodeficiency virus (HIV) infection in rural Uganda.
D. G. Byrne, P. M. Mathias, M. Mulvaney & M. Male-Kawuma 154A
Starch and NSP are association with higher micronutrient intakes in young children.
C. H. S. Ruxton, T. R. Kirk & N. R. Belton 155A
Foods perceived to be important for boys and girls in UK and in Pakistan.
R. Hakeem, J. Thomas & S. H. Badruddin 155A
Socio-cultural determinants of children's food choice.
R. Hakeem, J. Thomas & S. H. Badruddin 156A
Social class differences in foods eaten by a national sample of 4-year-old children in 1950.
C. J. Prynne, A. A. Paul, G. M. Price & M. E. J. Wadsworth 156A
Species composition of sheep diets when grazing grass/clover swards: the effect of parasitic status and level of feeding motivation.
M. R. Hutchings, I. J. Gordon, E. Robertson, I. Kyriazakis & F. Jackson 157A
Grazing trade-offs between forage intake and faecal avoidance in sheep: the effect of sward height, parasitic status and level of feeding motivation.
M. R. Hutchings, I. Kyriazakis, D. H. Anderson, I. J. Gordon & F. Jackson 157A
The effect of nitrogen form on the diet selection of sheep which have been deprived of protein in different ways.
G. Arsenos & I. Kyriazakis 158A
Food expenditure and child growth in deprived families living in London.
M. Nelson, C. Eastwood & C. Roberts 158A
Low cost but acceptable food budget standards for households with young children.
M. Nelson, J. Dallison & S. Paterakis 159A
A simple ergometer for in vivo nuclear magnetic resonance (NMR) spectroscopy studies of human calf muscle.
M. Francescato, V. Cettolo & P. E. di Prampero 161A
Creatine kinase reaction studied in human skeletal muscle at rest and during exercise by the saturation transfer method.
M. Francaux, J.-F. Goudemant, R. Demeure & X. Sturbois 161A
Phosphorus-31 nuclear magnetic resonance spectroscopy (^{31}P-MRS) and near infrared spectroscopy (NIRS) detected oxidative capacity of human gastrocnemius muscles.
M. Mizuno, T. Hamaoka, T. Osada, A. Ratkevicius, T. Katsumura & B. Quistorff 162A
Quantitation of human liver and muscle volume and glycogen concentration during exercise and recovery.
A. Casey, R. Mann, K. Bingham, J. Fox, P. G. Morris, I. A. Macdonald & P. L. Greenhaff 162A
Magnetic resonance spectroscopy: a useful tool to investigate the relationship between delayed onset muscle soreness and muscle metabolism.
M. Zehnder, M. Mülli, R. Buchli & U. Boutellier 163A
The effect of diet composition on acetate recovery factor during rest and exercise.
P. Schrauwen, A. J. M. Wagenmakers, W. D. van Marken Lichtenbelt, W. H. M. Saris & K. R. Westerterp 163A
Evidence for glycerol uptake by subcutaneous adipose tissue.
J. S. Samra, M. L. Clark, S. M. Humphreys, P. A. Bannister, L. K. M. Summers, I. A. Macdonald & K. N. Frayn 164A

Glycerol exchange in human skeletal muscle at rest and during exercise.
M. Sacchetti, G. van Hall & B. Saltin 164A
Lactate production in response to glucose and triacylglycerol infusion at rest and during aerobic exercise in human subjects.
M. Roef, D.-J. Reijngoud, H. Straver, R. Berger & K. de Meer 165A
Measurement of [U-^{13}C]glucose enrichment by GC combusion (GC-C-) isotope ratio mass spectrometry (IRMS). Precision and reproducibility of laboratory standards and biological samples.
A. P. Gijsen, F. van de Vegt & A. J. M. Wagenmakers 165A
The effect of exercise intensity on breath $^{13}CO_2$ recovery during [1,2-^{13}C]acetate infusion.
L. J. C. van Loon, P. Schrauwen & A. J. M. Wagenmakers 166A
Fat utilization during exercise at low and moderate intensity after a single fat- or carbohydrate-rich meal.
H. Huber, B. Knechtle, U. Mäder, Y. Schutz & U. Boutellier 166A
The metabolism of [^{13}C]-linoleic acid in healthy men and women.
S. H. F. Vermunt, R. P. Mensink, A. J. M. Wagenmakers, M. M. G. Simonis & G. Hornstra 167A
Increased *in vivo* liver nitric oxide production during endotoxin challenge in pigs.
M. J. Bruins, P. B. Soeters & N. E. P. Deutz 167A
In vivo whole-body nitric oxide synthesis, determined by the conversion of [$^{15}N_2$]arginine to [^{15}N]citrulline, is not increased in acute endotoxin-treated mice.
M. M. Hallemeesch, P. B. Soeters & N. E. P. Deutz 168A
The effect of drink composition on deuterium accumulation in able-bodied and spinal-cord-injured men.
D. Ball, J. B. Leiper & R. J. Maughan 168A
Exercise in healthy adult dogs increases plasma thiobarbituric acid reactive substances (TBARS), an indicator of oxidative stress.
R. Obra, E. J. Harper & J. Lunec 169A
Does exercise induce oxidative stress in endurance-trained kidney and heart transplant recipients?
L. Jiménez, G. Lefèvre, R. Richard, A. Duvallet, J. Etienne & M. Rieu 169A
Determination of hydroxylated derivatives of antipyrine in plasma with HPLC-Tandem-Mass Spectrophotometry.
S. A. J. Coolen, E. P. Meijer, M. van Lieshout, W. H. M. Saris & F. A. Huf 170A
Antipyrine as a marker for exercise-induced oxidative stress in untrained young adults.
E. P. Meijer, S. A. J. Coolen, W. H. M. Saris & F. A. Huf 170A
Biological applications of electron paramagnetic resonance spectroscopy: methods and limitations.
T. Ashton, S. K. Jackson, I. S. Young, B. Davies, E. Jones, J. R. Peters & C. C. Rowlands 171A
Regulation of non-esterified fatty acid release from human subcutaneous adipose tissue after an overnight fast.
S. M. Humphreys, S. W. Coppack, J. S. Samra, L. K. M. Summers, M. L. Clark & K. N. Frayn 171A
Arterialized plasma leptin concentrations and adipose tissue leptin production following oral and intravenous administration of a lipid emulsion.
K. Evans, M. L. Clark & K. N. Frayn 172A
Measurement of glucose production during exercise in human subjects: comparison of the arteriovenous balance and isotopic tracer methods.
M. Kjaer, R. Bergeron, L. Simonsen, J. Bülow & H. Galbo 172A
Splanchnic thermogenesis during a hyperinsulinaemic euglycaemic clamp.
L. Simonsen & J. Bülow 173A
Methodological modifications using the microdialysis technique in the peritendinous tissue during exercise.
H. Langberg, D. Skovgaard, J. Bülow & M. Kjær 173A

In vivo comparison of three microdialysis probe types used in the monitoring of interstitial glycerol, glucose and lactate.
R. C. Hickner 174A
Estimation of rat muscle blood flow by microdialysis probes perfused with ethanol [^{14}C]ethanol and $^{3}H_2O$.
B. Stallknecht, M. Donsmark, L. H. Enevoldsen, J. D. Fluckey & H. Galbo 174A
Human muscle interstitial K^+ measured by microdialysis during rest and exercise.
S. Green & J. Bülow 175A
The effect of endurance training on subcutaneous adipose tissue lipolysis in elderly women.
K. H. W. Lange, J. Lorentsen, J. Bülow & M. Kjær 175A
